

THE NEW MMIS

MMIS Introduction

- What is MMIS?
 - Medicaid Management Information System

- What does MMIS do?
 - The MMIS system is responsible for processing and adjudicating all Medicaid medical claims and encounters

Why replace MMIS?

- The current MMIS was developed in 1972
- MDCH goals and needs have exceeded the current MMIS capabilities
- The current MMIS system is not accessible directly for providers

The New MMIS

- CHAMPS – Community Health Automated Medicaid Processing System
- Provides a secure web portal to be accessible to a wide range of users
- Allows direct provider access
